## INTERNATIONAL PRELIMATION REPORT

Internation No.
PCT/US03/36575

I.	Basis of the report				
1.	With regard to the elements of the international application:*				
	the international application as originally filed.				
	the description:				
	pages 1-18 as originally filed				
	pages NONE , filed with the demand pages NONE , filed with the letter of				
	the claims: pages 19-21, as originally filed				
	pages NONE, as amended (together with any statement) under Article 19				
	pages NONE, filed with the demand				
	pages NONE, filed with the letter of				
	the drawings:				
	pages 1-9, as originally filed				
	pages NONE, filed with the demand pages NONE, filed with the letter of				
	the sequence listing part of the description: pages NONE, as originally filed				
	pages NONE , filed with the demand				
	pages NONE, filed with the letter of				
2.	With regard to the language, all the elements marked above were available or furnished to this Authority in the				
	language in which the international application was filed, unless otherwise indicated under this item.  These elements were available or furnished to this Authority in the following language which is:				
	the language of a translation furnished for the purposes of international search (under Rule23.1(b)).				
	the language of publication of the international application (under Rule 48.3(b)).				
	the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).				
3.	With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:				
	contained in the international application in printed form.				
	filed together with the international application in computer readable form.				
	furnished subsequently to this Authority in written form.				
	furnished subsequently to this Authority in computer readable form.				
	The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.				
	The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.				
4.	The amendments have resulted in the cancellation of:				
	the description, pages NONE				
	the claims, Nos. NONE				
	the drawings, sheets/ <del>fig</del> NONE				
5.					
	beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**				
th	* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).  ** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

Internation plication No. PCT/US05....575

V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement								
1. STATEMENT								
Novelty (N)	Claims 1	-16		YES				
the stay (c)	Claims N			10				
	_							
Inventive Step (IS)	Claims 1	-16	•	YES				
	Claims N			40				
	_		•					
Industrial Applicability (IA)	Claims 1	-16		YES				
	Claims N	IONE	1	00/				
Claims 1-16 meet the criteriaset out in PCT Article 33(2)-(4), because the preior art alone or in combination does not teach or fairly suggest a method comprising, inter alia, the steps of encoding (3310) the random bit stream using Variable Aperture Coding (VAC) so as to generate a constant amplitude, varying pulse-width, VAC encoding that represents the random bit stream by a plurality of pulses separated using only transition widths included in a pre-specified set of transition widths.
